

A three person team was assembled from the Leadership Council to bring forth a vision to the full Leadership Council and Board of Trustees. With Pastor Lex's guidance they met. Pastor Lex asked the group: "In five years, if Lake Edge was wildly successful, what would we look like?" After a number of sessions, what appears below is the essence of their answer. To achieve this vision we would need to hire a part-time staff person to oversee Faith Formation (children/youth/adult). There are a variety of very good ways for us to pay for this in the short term (2021 – 2023) and permanently (this information will be part of the follow up discussions you are invited to join). Christ the Solid Rock, Baptist will also be included in discussions through the Joint Governing Board. For starters, you are asked to provide your initial questions about this vision to the Leadership Council, info@lakeedge.org by August 15.

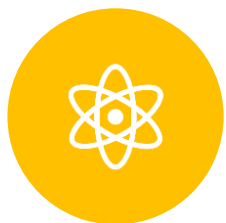

Additional ways to discuss and evaluate are also planned, and you'll hear about these later.

Youth Programming: Robust and progressive child/youth program that engages this generation and helps invest in our church future

Social Justice: Leaning in further to social justice issues to allow for both personal growth, and to create lasting change/impact in the community

Intergenerational Learning: Create an environment of continuous learning and engagement for all generations; bringing our mission in/outside church

Supporting Wellness: People are can bring their whole selves to church and have opportunities to be supported for their overall wellness
